Genesis® Quick Release Nose Equipment

To Prepare Base Tool to Accept Quick Release Nose Equipment

(Refer to the relevant Genesis® Tool Instruction Manual.)

- For nG3/4, G3/4 and G2/G2s tools remove Jaw Spreader Housing 71210-02101.
- For nG1, nG2 and nG2s tools remove 'T' Adaptor 71213-02020.
- Replace above part with 'T' Adaptor (item **6**). **Note:** For nG3/4 tools 'T' Adaptor (item **6**) is assembled through Nose Case Adaptor Assembly (items **2, 3, 4, 5** and **8**).
- Screw the Nose Case Adaptor Assembly (items **2, 3, 4, 5** and **8**) into the front of the tool.
- The Nose Equipment Cartridge (item **9**) is assembled onto the 'T' Adaptor (item **6**) by sliding in a plane normal to the Piston.
- Push the Quick Release Nose Casing (item **7**) into the Nose Case Adaptor (item **5**) ensuring flats are aligned, this locks the Quick Release Nose Casing into position.

To Remove the Quick Release Nose Equipment

- Rotate the Quick Release Nose Casing (item **7**) through 90 degrees and pull out of the Nose Case Adaptor (item **5**).
- To release the Nose Equipment Cartridge (item **9**) from 'T' Adaptor (item **6**) slide cartridge in a plane normal to the head Piston.
