

# Genesis® Suspension Kit for vertical down Operation with Remote Stem Collection

## Features

- Suspension kit for attachment to the Genesis® breakstem installation tool range, enabling tools to be mounted for vertically downwards riveting in a fixed station environment
- Kit can be retro-fitted to either Genesis® nG range or previous model Genesis® tools
- Remote stem collection device
- Secondary handle and trigger arrangement

## Benefits

- Improved ergonomics for vertical in-line use
- Improved quality of assembly
- Remote fastener stem collection eliminates down time for removal of stems from collector bottles
- Readily integrated into production lines

## Specifications

Stem extraction hose length	2,5 m
Stem extraction hose bend radius min.	0,5 m

Tool performances, cycle rate, pull force etc. are unaffected

For nG2, G2	Kit No. 71213-99910
For nG3, G3, nG4, G4	Kit No. 71223-99910

## Tool Preparation

For detailed information on fitting the Genesis® tool with the suspension kit, please refer to the data sheet on the website [www.avdel-global.com](http://www.avdel-global.com) or contact your local Avdel representative.
