

# "Jaw Release" Equipment for Maxlok® Lockbolts

## For Extended Jaw Life

Placing equipment for Maxlok® lockbolts that prolongs the jaw life. The equipment assembles over the pin without jaw contact. Prior to installation the tool can be removed from the pin at any time in the event of:

- the operator failing to assemble a collar onto the pin
- operator assembling the collar the wrong way around
- operator assembling the components incorrectly

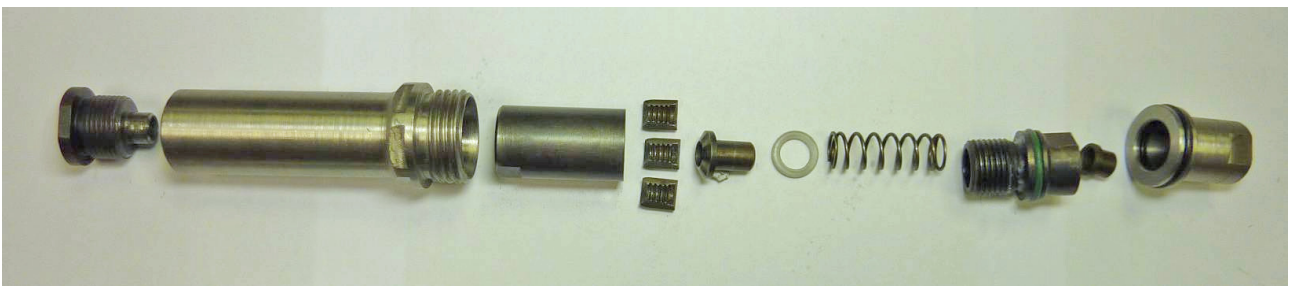

At the placing process the jaws release on the rear protrusion of the nose tip and enable vacuum pin extraction.
